

Nick Hillman

I first got involved with UNISON in 2016 when I became the Young Members Officer for the Borough of Poole branch. During that time I ran a team that put on training for all council apprentices on topics such as CV writing, interview skills and employment rights. This was a very successful programme and I spoke at national apprenticeship events about it and won the 2019 UNISON Young Member Officer of the year South West award.

I've attended many conferences during my time in UNISON to stand up for our members. Most recently I delivered a speech to the UNISON Local Government Conference on the importance of insourcing our adult social care provisions. I have spoken at the UNISON National Delegate and LGBT+ Conference many times.

If elected I want to make our branch much more visible. I will do this by recruiting and supporting more new stewards and workplace contacts. I want to get out and about meeting members in your workplaces so I can hear directly from you. I also want to streamline the process of getting in touch with the branch by implementing better software to manage incoming messages.

Please vote for me to be Branch Secretary
